Granville FFA Chapter

Help Granville FFA members travel the world!

Granville agricultural education department has been working hard to raise money for one amazing agricultural experience! In June of 2026, 20 hard working students and FFA members will be traveling to Ireland for an agricultural tour!

HOW CAN YOU MAKE AN IMPACT

We currently have over 20 students interested in our Ireland Tour! Many are completing monthly payments, fundraising or working to fund their trip! Sponsoring a student or donating to our group fund would assist in making this trip possible for them!

OUR TRIP

We will learn about organic and sustainable farming practices, the impact of climate change on traditional food production, and how each agricultural product requires specialized care. Get to know Irish farmers and fishermen, learn about the business of farming, and engage in hands-on projects at dairy, potato, shellfish, or sheep farms. Our trip will take us to the Emerald Isle, explore the vibrant, culture-packed, and welcoming streets of Dublin, Kilkenny, and Galway, and admire the Atlantic Ocean from atop the Cliffs of Moher.

Our hard work so far..

Many of our students have been dedicated to preparing for this incredible journey by actively participating in various initiatives. They have been organizing fundraisers such as benefit breakfasts, community events like a Halloween festival, cleaning horse stalls at the NDSF and so much more! Many have been doing jobs of their own like one student who grew, harvested and sold sweet corn. Their enthusiasm and commitment not only demonstrate their eagerness to learn and explore but also build valuable skills in teamwork, financial responsibility and project management. Each fundraiser is an opportunity for them to engage with the community, share their goals, and express gratitude for the support they receive. These efforts highlight the importance of collective action and the power of community in turning dreams into reality.
