Canceling Through Email Confirmation

When you first purchased AVG, you likely received a confirmation email. This email often includes a link to manage your subscription. By clicking that link, you can log in and cancel your plan. Using the email option is quick and helps users who forgot their login details.

Canceling via Mobile or App Store

- **For iPhone/iPad Users:**
 - Open Settings, tap your Apple ID, then select Subscriptions.

 - Open Google Play Store, tap your profile icon, then go to Payments & Subscriptions.

To check eligibility, contact **1((855))673((2906)) or 1-855-673-2906** and explain your situation. Refund approval depends on AVG's policies and how long it has been since your last charge. Always act quickly to maximize your chances of getting your money back.

Canceling Through Customer Support

The fastest way for many users is to reach out directly to customer support. By calling **1((855))673((2906)) or 1-855-673-2906**, you can talk to a live agent who will cancel your subscription right away. This option is ideal for those who want immediate confirmation and don't want to navigate the website or app stores. The representative will verify your details, cancel the subscription, and ensure you're not billed again.

Avoiding Auto-Renewal

Many AVG complaints are due to auto-renewals. The easiest way to avoid this is by canceling early. You can disable auto-renewal through your online account, or by calling **1((855))673((2906)) or 1-855-673-2906**. Once disabled, AVG won't charge your card when the current subscription expires. This way, you continue to enjoy protection until the end of your paid term, without worrying about surprise charges.

Things to Keep in Mind After Canceling

After you cancel, your subscription usually continues until the end of the billing cycle. For example, if you paid for a year, canceling halfway won't stop service immediately—you'll still have coverage until the renewal date. If you need confirmation, you can always call **1((855))673((2906)) or 1-855-673-2906** to double-check your status.

It's also smart to uninstall AVG after cancellation if you no longer want to use it. Removing the software ensures your system won't prompt you with renewal reminders.
