# RISING WATERS RISING NEED

On July 18, a burst pipe flooded the YMCA. Gyms, locker rooms, child watch, and more were left damaged. For the first time in over 80 years, the Y faces the possibility of closing its doors for good. The Y is more than a building. It's where children with disabilities learn confidence, families connect, and seniors find strength. This is where our community comes together, and we can't lose it.
